

Parting Statement

The ability to create world-class, man-made waves in the beautiful and windless Wisemans Ferry valley has always been the priority of this property development.

Due to unforeseen circumstances, the wave tech provider in the Product Disclosure Statement dated 5 October, 2021 and BALNCE, have mutually elected to terminate their relationship. This decision stems from several global and local economic conditions, as well as complicated internal and external challenges.

We maintain the utmost respect for the SurfLoch technology and are grateful for all the work they have completed to-date for our project. We can't wait to see the magic that SurfLoch will inject into the Palm Springs Surf Club in the United States (currently under construction) when the first waves roll through later this year.
